

Before ya get started, here's some...

Quick Tips

Witch Shoes in the Moon

Tools & Supplies you'll need:

[Get everything ya need in my online shop!](#)

(you can click on that)

- Glass of your choice. Be traditional with blacks, greys, and purples, get enchantingly creepy with iridized black & clear wispy and iridized grey or white & clear wispy, or throw in some greens and oranges for fun
- 14 gauge tinned copper wire or 16 gauge zinc coated steel wire & round nose pliers to make the hangers & 14 gauge tinned copper wire for decorative wirework laces

Trouble with curves? After scoring, use your running pliers to verrrrrry gently squeeze on one side of the curve til you hear a "clink". Do the same on the opposite side to run the score.

Aaaaaaaaand....get all your glass questions answered, catch Live Events, free patterns, & lots more! Join your fellow glass hoarders in our [Peace, Love, & Stained Glass Community](#) (you can click on that)!
